Subject: FW: PFCs in Cape Fear watershed

Tim's reply. He also asked about a heads up to R4 and the NCDEP. Probably a good idea.

Yes, this went to the IOAA. The two week clock is ticking. Do you know if Region 4 and NC DEP folks know that this is coming?

Tim

Hey Tim and Andy,

Mark Strynar asked about this paper. Right now it is with Kevin for approval. I think they did a pretty good job of addressing reviewer concerns, so I don't anticipate any big issues. Do you know if this went to the IOAA yet? The fact sheet was in the email that Andy L. sent on 9/21. I guess they are getting some pressure from the co-authors to get this out, so if you all could prioritize getting the review completed, that would be much appreciated.

Thanks and let me know about the IOAA review,
